

## COVID-19 Response

Goodman Performance Therapy (GPT) will continue to remain open as an essential business under the shelter in place order. Your safety as well as my safety is of utmost concern! Extra precautions are being made to sanitize high touch areas (door handle, chairs, countertops), as always the treatment table is thoroughly cleaned between patients, and head/face regions when lying on the table have an added layer of cloth/towel protection. Hand sanitizer and soap/water will be provided and I do ask that you perform hand hygiene upon your arrival. Also, please check daily for COVID-19 symptoms while under my care (fever, cough, and/or shortness of breath) and if any of these symptoms are present to please notify GPT as well as your primary care physician. If you do have an illness, please stay home until free of fever without the use of medication for at least 72 hours (3 full days) AND symptoms have improved for at least 72 hours AND at least seven days have passed since symptoms first began. As always, I will continue treatments in a one-on-one environment in a low volume clinic with no contact with other patients. If you have any additional concerns that I did not address, please feel free to contact me.

Thank you for trusting me with your care,

Ryan
